ABOUT US

New Zealand Healthy Homes Solutions (NZHHS) has more than 15 years of industry experience in building inspections and is regarded as one of the market leaders especially in its inspection standards. We have carefully designed a robust and rigorous inspection methodology to tackle the latest Healthy Homes regulation which stipulates the minimum requirement that all rental properties in New Zealand have to comply by 2021. Our inspection report will carry its weight in gold as we are the only company that will go as far as to guarantee 100% compliance to the New Zealand Healthy Homes Standards. You can rest assured that we have your best interest in mind.

**We are a
dedicated team
aiming to give
you the best
valued service.**

OUR SERVICES

Healthy Homes Inspections

All inspections will be carried out by our trained NZHHS inspectors using our specially designed inspection methodology. We also offer 100% guarantee that our inspections are compliant with New Zealand Healthy Homes Standards or your money back.

Free Non-Obligatory Quotes from Accredited Supplier

We provide free non-obligatory quotes from trusted and accredited supplier for your ease as we realised that it is not good enough to just point out the issues but to also offer solutions to the problems. We do not add any margin on top of the quote and you are able to deal directly with the supplier.

Re-inspections

We will carry out re-inspection on your property after remedial work has been carried out and issue a compliance certificate and statement once your property has met all the Healthy Homes Standards. If you have used our trusted supplier for the remedial work, we will also waive the re-inspection fees.
